10 Reasons You're Going to Want UltraBLU

By Geek Insider · July 14, 2023

If you are looking for a powerful and effective UV-C LED source for sterilization and disinfection, UltraBLU™ is the answer. UltraBLU™ is designed to kill viruses (including Covid-19), bacteria, molds, and other pathogens. In this blog post, we will give you 10 reasons why UltraBLU™ is the best UV-C LED source for sterilization and disinfection.

Reason 1: Powerful and Effective

UltraBLU™ uses UV-C LED technology to deliver powerful and effective sterilization and disinfection. It kills 99.8% of viruses and bacteria in under 10 seconds, making it one of the most powerful and effective UV-C LED sources on the market. (The MagSafe technology allows you to also charge your phone!)

Reason 2: Easy to Use

UltraBLU™ is easy to use and requires no special training. Simply turn it on and place it in the area you want to sterilize or disinfect. The compact design makes it easy to carry and store, so you can take it with you wherever you go.

Reason 3: Safe and Eco-Friendly

UltraBLU™ is safe and eco-friendly. It uses UV-C LED technology, which is non-toxic and produces no harmful byproducts. It is also energy-efficient, so you can use it without worrying about your carbon footprint.

Reason 4: Durable and Long-Lasting

UltraBLU™ is built to last. It is made from high-quality materials and is designed to withstand regular use. The LED bulbs are long-lasting and can provide years of reliable sterilization and disinfection.

Reason 5: Versatile

UltraBLU™ is versatile and can be used in a wide range of settings. It is ideal for homes, offices, hospitals, schools, and other public places. It can be used to sterilize and disinfect surfaces, including hands, air, and water, while charging your phone up to 3x faster.

Reason 6: Affordable

UltraBLU™ is affordable and offers great value for money. It is much cheaper than other UV-C LED sources on the market, but it is just as effective. You can buy it online from the UltraBLU™ website and have it delivered to your doorstep. Also available on Walmart.com and soon other sites.

Reason 7: Convenient

UltraBLU™ is convenient and easy to use. It comes with a USB cable, so you can charge it from any USB port. (Lightning or USB-C) It also has a built-in battery, so you can use it even when there is no power source available.

Reason 8: Compact

UltraBLU™ is compact and easy to carry. It is small enough to fit in your pocket or purse, so you can take it with you wherever you go. It is perfect for travelers, students, and anyone who needs to stay protected from germs and bacteria.

Reason 9: High-Quality

UltraBLU™ is made from high-quality materials and is designed to provide reliable sterilization and disinfection. It is backed by a 1-year warranty, so you can buy it with confidence.

Reason 10: Trustworthy

UltraBLU™ is a trustworthy brand that is committed to providing high-quality UV-C LED sources for sterilization and disinfection. It has received 5-star reviews on TrustPilot, which is a testament to its effectiveness and reliability.

Conclusion

If you are looking for a powerful, effective, and affordable UV-C LED source for sterilization and disinfection, UltraBLU™ is the perfect choice. With its compact design, ease of use, and high-quality construction, it is the best UV-C LED source on the market. Visit the UltraBLU™ website today to learn more and buy now!
