

Press Release

EDIBLE ART™ TASTEFULLY ILLUSTRATES YOUR FAVORITE GOLF HOLES – PAINTED LIVE AT THE '23 PGA SHOW

January 1, 2023 Fairfield NJ:

Now you can have your signature hole and eat it too! *Edible Art – Golf* from ChocolateText®, an Immunity Goodness® brand, will have their art trained illustrators available to reproduce your much loved golf scene. Each masterpiece is 100% edible with the image hand painted using our colored cocoa butter on a large canvas of Belgian Dark or Milk chocolate. Special flavored chocolate canvases are also available including Milk, Dark, MochaPresso [crushed espresso beans] and Vitamin D [for those who miss their link's sunshine]. Each art piece comes packaged for display and eventual consumption.

As seen in PGA Magazine's MPlus, Edible Art™ was originally designed for General Manager and previous PGA Professional of the Year - Dan Pasternak: "I was looking for something special to give as a thank you for new members or someone who spends a lot in the golf shop...it's a painting of our 18th hole made of colored cocoa butter. It's a unique product and perfect for PGA Professionals looking for something that sets them apart."

Already over 40 of the world's leading golf holes have been already illustrated, with many of the stock offerings available and on display at the show.

Come by booth #3415 and take advantage of our show special, all custom illustrations will be 33% off the regular total price and you can take it home or have it created and shipped later. With over 30 years of chocolate and infusion experience, Immunity Goodness® is known for creativity and healthful creations.
