STRACKALINE OFFERING COMPLIMENTARY HOLE LOCATION SOFTWARE TO ALL PGA MEMBERS
VISIT THEM AT BOOTH 2808

JANUARY 22, 2025

SAN DIEGO, Calif. –StrackaLine, maker of golf's premier greens guides, yardage books and hole location software is offering free access to their industry leading event hole location sheet software. Come visit StrackaLine at booth 2808 at the 2025 PGA Show.

Why use StrackaLine Event Hole Location Software: Streamlines your hole location setup process and elevates the overall golf experience.

- **Set Hole Locations based on StrackaLine greens slope data:** Setting hole locations based on data helps improve pace of play and course setup by ensuring hole locations are set fairly.
- **OR Set Hole Locations manually:** Input the paces on/left/right after you've obtained the hole locations.
- **Print tour level hole locations sheets:** Allows you to print high quality hole location sheets that offer as much detail as you would like including a real view of the green along with any surrounding bunkers and penalty areas.

Since 2007, StrackaLine is the trusted Greens Guides and Yardage Book supplier to all the touring professionals, collegiate teams, and all levels of amateur golf. StrackaLine's USGA compliant greens guides offer a level of detail and accuracy not available anywhere else for the most precise green reading. The yardage books include complete tee-to-green measurements for every hole.
