EDUCATION - TROUBLESHOOTING

Troubleshooting Information (The Chime Connectivity Checker):

If you are not able to connect to meeting rooms, follow this link: <https://app.chime.aws/check#> and check that there are no blocked IP addresses/domains.

1) If your device passes all the tests, you are ready to use Amazon Chime!

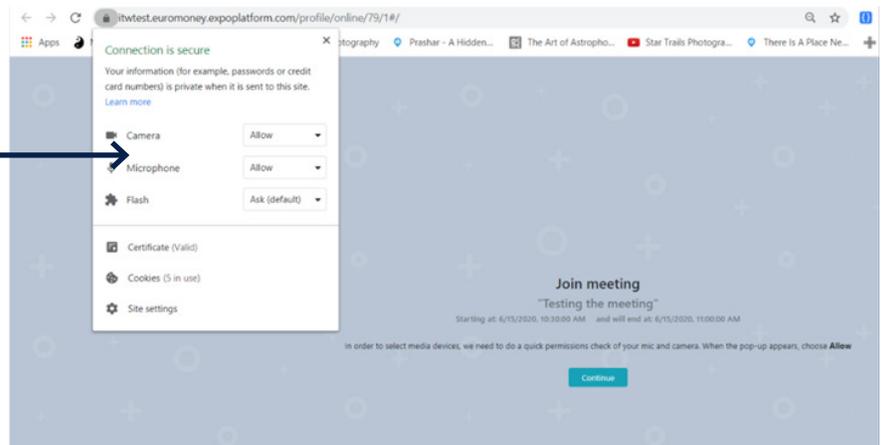

2) If your IP address is blocked, it will generate a timeout error. There are three ways you can bypass these errors:

1. Turn off private VPN/proxy.
2. Get the IP addresses unblocked from your Internet Service Provider.
3. Try using a different proxy/VPN, if possible.
